

In re Patent Application of:
WESTPHAL
Serial No. 10/655,766
Filed: **SEPTEMBER 5, 2003**

IN THE SPECIFICATION:

Please insert the two paragraphs below on page 4 of the specification after line 13:

--Figure 10 shows a logical circuit which implements a simplified schema.

Figure 11 is a block diagram showing system/apparatus/computer program products as described in the specification and original claims.--

Please insert the paragraph below on page 12 of the specification after line 1:

--Figure 11 shows a block diagram of system/apparatus/computer program products in accordance with one aspect of the invention. A computer 1100 has a computer storage medium reader 1140 and is connected to a network 1110. Other computers, 1100A and 1100B are also connected to the network. Computers 1100, 1100A and 1100B can have CAD/CAM programs stored thereon for execution. A computer readable storage medium 1120 is shown which has stored thereon computer readable instructions constituting a computer program. The program is described in the specification above.--
